

GRIZZ screen protector manual:

1. Clean the screen thoroughly. Peel off the middle protective layer with the START sticker.

2. Try on the film, adjust it perfectly on each side and run your finger through the center of the film.

3. Peel off another part of the START sticker from the bottom with the palm of your hand.

4. Peel off the remaining part of the START layer from the bottom by pressing on the second part of the film with your hand.

5. Remove the FINISH layer by pulling on the sticker. Move the protective film parallel to the screen. Press out the remaining air with a squeegee.

6. Use DUSTSTIX to remove the dust under the film.
